

## Section 1. PRODUCT DESCRIPTION

### MINERAL WOOL DISC – EDMW

Mineral wool discs EDMW for covering up work holes in mineral wool and protecting of fastener fixing thermal insulation material in immersed mount so as to minimize spot thermal conductivity of the fastener. This eliminates spots appearing on the wall with fastened thermal insulation material due to water vapour condensation.

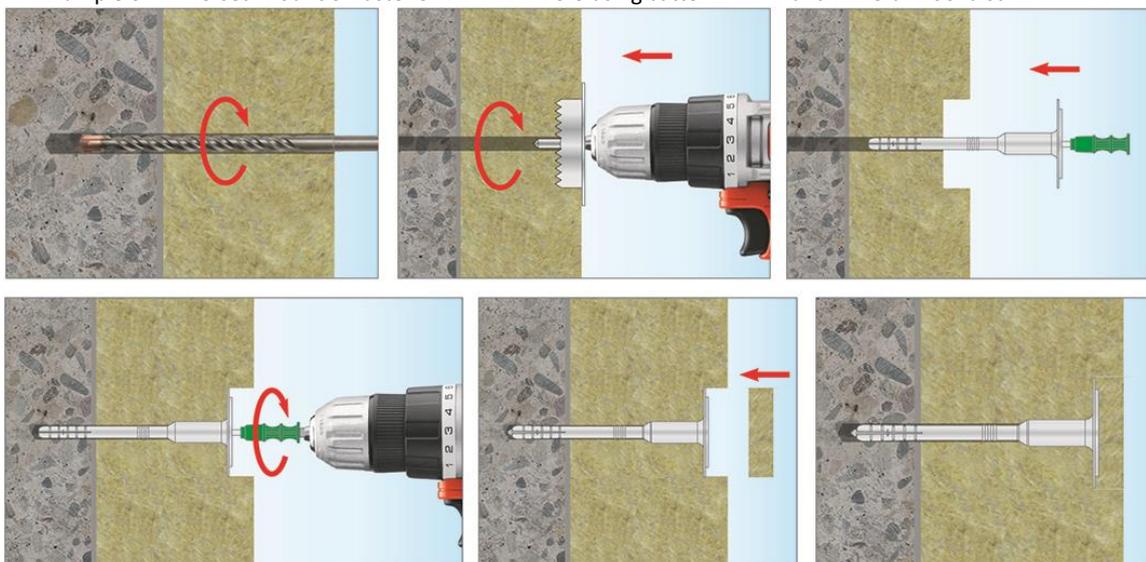

#### Advantages:

- makes preparation of surface for facade finishing easier and faster
- allows for use of fasteners 20mm shorter compared to installation of fastener without mineral wool disc (so-called surface mount)
- eliminates thermal bridges

## Section 2. EXAMPLE INSTALLATION

Example of immersed mount of fastener WK THERM S-8 using cutter WK-FM and mineral wool disc EDMW

## Section 3. TECHNICAL DATA

TECHNICAL PARAMETERS			
Product code	Dimensions [mm]	Density [kg/m <sup>3</sup> ]	Number of pieces in a box
EDMW	67x17	130	100

## Section 4. REMARKS

1. All previous version of this Product Data Sheet shall cease to be valid
2. Data given in this Product Data Sheet is in accordance with current knowledge and published in good faith. KLIMAS Sp. z o.o. is not responsible for correctness and quality of the fixing if recommendations regarding method of use and installation are not followed.
