

PRODUCT DATA SHEET – TCK

Section 1. PRODUCT DESCRIPTION

CORUNDUM WHEEL FOR CUTTING STONE – TCK

Standard disc (straight, type 41) suitable for cutting of stone, terrazzo, reinforced concrete, ceramic materials. Unique composition of the binding resin and abrasive grains ensures long life of the disc and prevents overheating of the material being cut. Suitable for angle grinders and table saws.

The corundum discs are certified: Nr B-022/23
according to the standard PN-EN 12413:2020-03

Section 2. METHOD OF INSTALLATION

1. Only original products supplied by the manufacturer may be used
2. Before use, read the health and safety regulations
3. Use appropriate blades for the intended work. Make sure that the rotation speed of the device does not exceed the permissible rotation speed of the blade
4. Disconnect the device from the mains during assembly and disassembly of the disc
5. Install the blade in the cutting direction marked on the blade
6. Take care when using cutting and grinding discs. Use eye and hand protection. Make sure that the cutting sparks are not directed at flammable materials and other people
7. Put the device aside after use carefully to prevent the blade from damage

Section 3. TECHNICAL DATA

TABLE 1. SELECTION TABLE

Product code	Blade diameter x inner hole diameter	Blade thickness	Max. rotation speed	Max. linear speed	Pieces per pack
	[mm]	[mm]	[rpm]	[m/s]	[pcs]
TCK-11530	115 x 22,23	3,0	13300	80	5
TCK-12530	125 x 22,23	3,0	12250	80	5
TCK-18030	180 x 22,23	3,0	8600	80	5
TCK-23030	230 x 22,23	3,0	6650	80	5

Section 4. REMARKS

1. All previous versions of this Product Data Sheet shall cease to be valid
2. Data given in this Product Data Sheet is in accordance with current knowledge and published in good faith. KLIMAS Sp. z o.o. is not responsible for improper use of accessories if recommendations regarding method of use and installation are not followed.
