

## PRODUCT DATA SHEET – TFIB

### Section 1. PRODUCT DESCRIPTION

#### ADHESIVE FIBREGLASS TAPE, CLASSIC – TFIB

Adhesive fibreglass tape, classic TFIB is used for reinforcing plasterboard joints (48mm wide), covering small cracks and repairing major cracks in plaster (100 and 150mm wide) or repairing damages of plasterboard framing (100 and 150mm wide). The tape is made of material which prevents the development of air bubbles.

### Section 2. METHOD OF INSTALLATION

1. Before application of the tape clean surface of the boards
2. Apply adhesive tape on plasterboard joint
3. Once plasterboards are joined with tape apply thin layer of joint compound on the tape
4. After the compound has dried, apply consequent wider layer until the mesh is immersed completely
5. After all layers are applied, smooth out the compound to achieve uniform and smooth surface

### Section 3. TECHNICAL DATA

SELECTION TABLE		
Product code	Size (width x length)	Number of pieces in a box
TFIB-04820	48 mm x 20 lm	24
TFIB-04845	48 mm x 45 lm	24
TFIB-04890	48 mm x 90 lm	24
TFIB-10090	100 mm x 90 lm	12
TFIB-15025	150 mm x 25 lm	12

### Section 4. REMARKS

1. All previous versions of this Product Data Sheet shall cease to be valid
2. Data given in this Product Data Sheet is in accordance with current knowledge and published in good faith. KLIMAS Sp. z o.o. is not responsible for correctness and quality of the fixing if recommendations regarding method of use and installation are not followed.
